-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Metroyanis (US 5,980,064).

Re claims 1 and 11: Metroyanis discloses a device comprising, shielding (36), a case (22) having a containing room; a container (32) embedded in the containing room; an electrical structure (45 and 52) being interface between the case and the container for supplying power.

Re claims 2-3 and 17-18: Metroyanis discloses a slot (42) and a fastener such as screw means (40 and 58).

Re claims 4-5 and 12-13: Metroyanis discloses three batteries in the container (34 in Fig. 3).

Re claims 8, 10, 14, and 16: Metroyanis discloses a LED as a lighting component (46).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2875

4. Claims 6-7, 9, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Metroyanis in view of Painter (US 5,845,987).

Re claims 6-7, 9, and 15: Metroyanis does not disclose the lighting component is a fluorescent lamp or an electroluminescent. Metroyanis discloses a LED as a lighting component connected to a battery pack. Painter shows an LED array (198), a fluorescent lamp (164 in Fig. 12) in a container (150) and an electroluminescent panel (64 in Fig. 17) as a lighting component, and these lighting components are connected to a battery pack. It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute Painter's fluorescent lamp or electroluminescent panel with Metroyanis' LED, since the Examiner takes Official Notice of the equivalence of a fluorescent lamp, an electroluminescent lamp and a LED for their use in the illumination art and the selection of any of these known equivalents would be within the level of ordinary skill in the art.
